- 68grams
- Suitable for medium to large sensors

KM-AC1

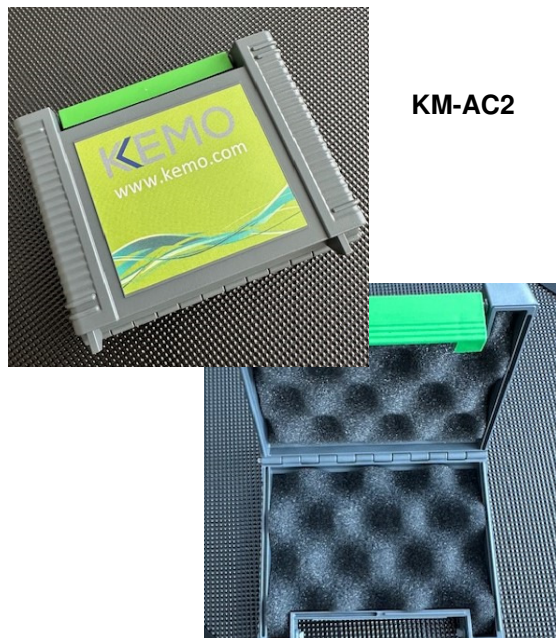

Kemo Ltd has a range of protective cases for its accelerometer and instrumentation products. When buying a new product from Kemo these customised protective cases are supplied for free as part of your purchase. We appreciate that not all suppliers do the same and sometimes less rugged cases do not survive the test of time.

We can supply empty cases for you to use with any sensor that requires protection.

Choose from the two types of case suited for accelerometers and other sensors.

### Type 2 – KM-AC2

- Secure clip closure
- Hard plastic case
- Ext. Dims. 100x80x30mm
- Int. Dims. 93x60x35mm
- Eggbox foam interior
- Flexible interior holding
- 57grams

KM-AC2

Due to continued product development Kemo Limited reserve the right to change specification without notice.
